

Information for European Union citizens in Remscheid

Since January 1st 2005 the new immigration law and the law to residence exist. The new rights are including also the liability to the participation in integration courses. These integration courses contain a language course with 600 lessons at the moment, moreover a course, called "Orientierungskurs"¹. Citizens from countries of the European Union are relieved from this liability. For these citizens the regulations of the European Union are valid.

European Union citizens can also voluntary visit the language courses and integration courses for learning the German language.

You can receive further information about the offer of language courses and integration courses and filing for an application (for the participation in integration courses) at the aliens' registration office (Ausländeramt, Elberfelder Str. 36) moreover at the advice centre for immigrants ("Migrations(erst)beratungsstelle") of the "Caritasverband Remscheid" Blumenstr. 9

Yours sincerely

Stadt Remscheid
